PROFESSIONAL SUMMARY

NOC Technician with 2.5 years of hands-on experience in data center operations, infrastructure monitoring, incident handling, and first-level troubleshooting. Experienced with Zabbix, Checkmk, Motadata, Windows Server, and networking fundamentals. Familiar with monitoring servers and network devices, responding to alerts, supporting clients, maintaining operational documentation, and working in a 24x7 data center environment. Currently developing practical skills in networking, Windows Server administration, and infrastructure monitoring.

PROFESSIONAL EXPERIENCE

CAS Cloud Data Center

- Monitor servers, network devices, and infrastructure using Zabbix and Checkmk.
- Respond to infrastructure alerts and incidents within operational/SLA requirements.
- Perform first-level troubleshooting and escalate issues when required.
- Handle incidents and service requests using Motadata.
- Support clients with requested data center tasks and operational coordination.
- Perform monitoring and checks related to replication/synchronization and report abnormal log gaps.
- Assist with rack operations, cable management, hardware installation, and physical infrastructure tasks.
- Maintain incident records, shift handovers, and operational documentation.

EDUCATION

Degree / University – Computer Science & Engineering / Maharishi Markandeshwar Deemed to be University
+2 / College – Bhairahawa Model H.S.S
SEE / School – Rupandehi Lilaram Neupane H.S.S

TECHNICAL SKILLS

Networking: TCP/IP, OSI Model, IPv4, VLAN, Trunking, STP, DNS, DHCP, ICMP, SNMP, Routing & Switching

Routing: RIP, EIGRP, OSPF, Static Routing; basic ACL and NAT concepts

Monitoring: Zabbix, Checkmk

Ticketing: Motadata

Operating Systems: Windows Server, Linux

Virtualization / Labs: VMware Workstation, Cisco Packet Tracer

Windows Server: AD DS, DNS, DHCP, Group Policy, File Services, IIS, RDP, Windows Server Backup

Data Center: Infrastructure Monitoring, Rack Operations, Cable Management, Hardware Installation

Professional: Incident Management, First-Level Troubleshooting, Client Support, Documentation

LANGUAGES

English • Nepali • Hindi

HOBBIES AND INTEREST

Learning Networking and IT Infrastructure, Exploring New Technologies, Practicing Networking Labs
